Discovering Famous Artists

Each week, children learn about a famous artist's personal history and engage in hands-on activities to practice the artistic styles and techniques that famous artists used to create their beautiful, timeless works. In this colorful and creative course, students learn how to discuss art, such as explaining the differences between abstract and realism art, or describing pointillism. Together we explore how an art piece makes us feel and how each work can affect us differently. Discovering Famous Artists features an integrated curriculum so, as we study each artist, students will also learn about history, geography, and math as they practice language skills and develop critical thinking skills - all in a fun and engaging way! At the culmination of the program, students will have created their own art portfolio featuring their original works in the style of the world's famous artists like Claude Monet, Andy Warhol, and Vincent Van Gogh.

Each child will learn essential kicks, punches, and blocks, along with self-defense elbow and knee strikes. All techniques are always practiced on equipment held by the instructor, never student-to-student. Most importantly, your child will gain confidence in themselves and their ability to succeed. ***waiver and release required**

In Young Chefs, children learn how to measure, pour, mix, and stir while being free to use their creativity. These outrageously fun cooking classes are a great way to introduce children to the joy of cooking and baking. Kids show a sense of pride when they can make something with their own hands. The objective is to enhance confidence, skills, and pride in each child as they prepare fun and tasty meals. Students will learn by doing as they are encouraged to explore their imagination and creativity while learning basic cooking skills and safety in the kitchen.

Each class includes warm-ups, floor exercises, the sport activity of the week, stretching, and then a cool-down. We don't make it competitive for preschoolers; it's a completely positive experience! It's amazing how this early exposure makes kids more willing to give new sports a try as they get older.
