Chess Club

Chess Club is taught by experienced Silver Knights instructors using a curriculum certified by National Master. In Chess Club, students learn rules, develop strategies, and practice with peers. Students learn all about the chess pieces and chess board at a gentle pace, adding details bit by bit as they accumulate all the knowledge necessary to play a full game of chess. Playing chess is a great way to develop a child's critical thinking skills, sportsmanship, and patience – all while having fun! Some of our students have become state and even national champions, but mostly they've just been regular kids who had fun, learned a new skill, and made some new friends.

Each child will learn essential kicks, punches, and blocks, along with self-defense elbow and knee strikes. All techniques are always practiced on equipment held by the instructor, never student-to-student. Young Chefs

In Young Chefs, students learn how to measure, pour, mix, and stir while being free to use their creativity. Our outrageously fun cooking classes are a great way to introduce children to the joy of cooking and baking. Kids show a sense of pride when they can make something with their own hands. The objective is to enhance confidence, skills, and pride in each child as they prepare fun and tasty meals. Your young chefs will learn by doing as they are encouraged to explore their imagination and creativity while learning basic cooking skills and safety in the kitchen.
